

Automate and Secure K-12 Dismissal

SCHOOLPASS

Enhance Student Safety and Streamline Dismissal Operations

There is no other dismissal management system in the United States like SchoolPass. Our dismissal process has been streamlined and embraced by our community. It is fast, easy, safe, and time saving. With this cutting edge technology, we are now a leader in the country when it comes to carpool dismissal."

Marynell Murphy,

Director of Operations.
The Lamplighter School

Improve Dismissal Efficiency

Consolidate your student schedule changes and automatically communicate these changes to teachers, staff and affiliated parents.

Enable your school to process dismissal up to 50% faster.

Reduce Front Office Work

Parents simply make student schedule changes via their mobile app instead of sending notes, emails and voicemails.

Automate your front office work and save up to 85% of the time spent manually coordinating student schedule changes.

Enhance Campus Safety

Monitor all vehicles coming on and off your campus to strengthen your campus operation and security.

Know where students are supposed to be at all times even when schedules change.

LICENSE PLATE & RFID/TOLL TAG INTEGRATION

and more...

ROBUST, INTEGRATED FEATURES

SchoolPass empowers your school to automate dismissal, eliminate front office work, and consolidate real-time schedule changes to increase efficiency and safety for carline, buses and afterschool activities

Bus Boarding and Notifications

Ensure you have the right students on the right buses. Produce real-time bus manifests and maximize bus capacity. Notify parents and administrators when buses leave campus and for field trips.

Carline Automation

Parents are automatically identified and students are organized for dismissal based on license plates, RFID/toll tags, GPS on their phones or mobile entry onsite. Staff use this information to manage efficient and faster dismissal.

Campus Security

Enhance student safety and campus security by screening vehicles using automated license plate cameras and RFID/toll tag readers for arrival and departure from campus. Security personnel can be notified when unwanted vehicles arrive on campus.

Student Arrival and Dismissal Changes

Empower parents via a mobile app to manage and communicate dismissal changes such as late arrival, playdates and afterschool activities. All changes are communicated in real-time to administrators, teachers and affiliated parents. Front office manual work is reduced by up to 85%.

After-School Activity Management

Manage afterschool activities online including activity attendance, with or without signature capture. Provide your activity coordinators real-time rosters, your parents with accurate attendance notifications and your business office with attendance reports for billing accuracy.
