SCHOOLPASS

Visitor Management

The modern, easy-to-deploy visitor management system for K-12 schools

Mobile School Check-In System

The visitor sign-in/check-in app allows you to collect specific data and specify unique terms of entry for different visitor types such as parents, contractors, and volunteers.

Instant Visitor Background Checks

SchoolPass offers a complete and unique visitor screening solution and school-focused security tools to improve the safety and efficiency of your campus.
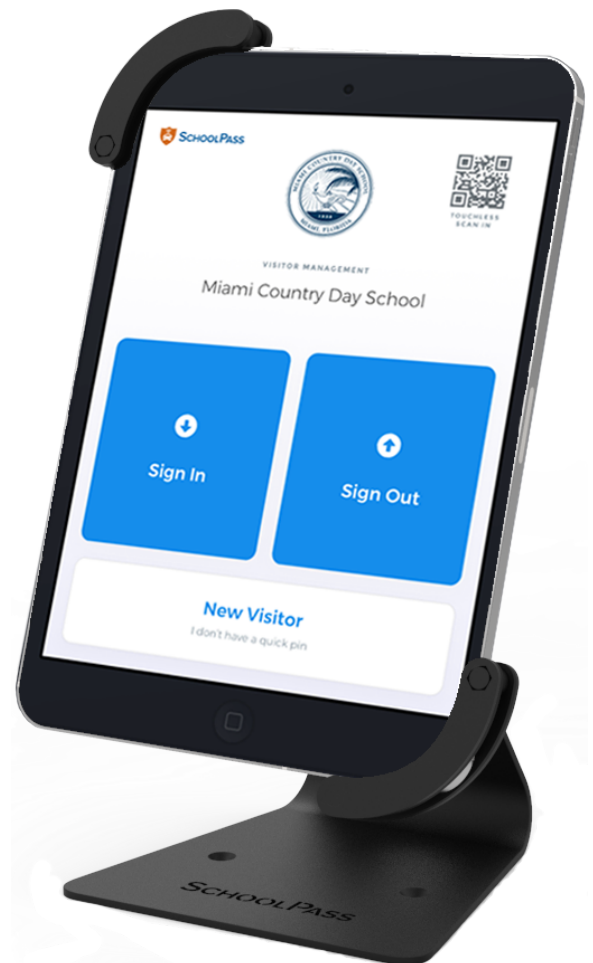

Student Attendance Integration

The app fast-tracks the student sign in/out process by integrating attendance with your SIS to automatically populate and print tardy and early dismissal slips.

Complete Campus Visibility

You can pull complete and accurate lists of everyone on campus, search sign-in history for any specific visitor, building, or time to get the information you need quickly.

Visualize Campus Foot Traffic

Know where visitors, students, and staff are across campuses, buildings, and floors - in real time.

Seamlessly send attendance data to your SIS.

Account for everyone during an emergency.

SchoolPass is fully integrated with major SIS providers

We enable schools to manage critical operational data in one place, without the hassle of navigating to different systems.
